---

I saw an advert in the local paper advertising [used BMW Maidstone](#) . I don't normally read the free weekly newspapers that are pushed through the letterbox. I generally put them straight into the recycling box as I prefer to catch up with the latest news on my Sky iPad app. It was meant to be that I did sit and read through this though as it prompted me to contact Big Motoring World. They were promoting a used car sale and had a stunning low mileage BMW 1 Series featured at the same price as a used VW I had been looking at.
